

## Clover Appoints Donna Ambrosino, M.D., and Ralf Clemens, M.D., Ph.D., to Board of Directors

June 20, 2022

SHANGHAI, China, June 20, 2022 (GLOBE NEWSWIRE) -- [Clover Biopharmaceuticals, Ltd.](#) (Clover; HKEX: 02197), a global clinical-stage biotechnology company developing novel vaccines and biologic therapeutic candidates, today announced the appointment of Donna Ambrosino, M.D., and Ralf Clemens, M.D., Ph.D., to the company's Board of Directors.

"We are pleased to welcome Donna and Ralf, who have been members of our Vaccine Scientific Advisory Board since 2020 and have been instrumental to the development of our lead COVID-19 vaccine candidate, to our Board of Directors and look forward to their additional contributions to our overall corporate strategy and governance," said **Joshua Liang, Chief Executive Officer and Executive Director of Clover**. "Donna's background as a celebrated researcher, infectious disease expert, and proven biotech entrepreneur will further bolster the strength and diversity of Clover's board, while Ralf brings industry-leading expertise in global vaccine development and an impressive record of successfully developing and commercializing first and best-in-class vaccines."

Dr. Ambrosino is a renowned scientific leader for vaccine development and a current member of Clover's Vaccine Scientific Advisory Board. Until November 2019, she served as Chief Executive Officer at Nosocomial Vaccine Corporation, where she led the collaborative discovery and development of a gram-negative vaccine for hospital-acquired infections. Prior to that, as the first Chief Executive Officer of MassBiologics, she recruited and led the scientific team that discovered multiple monoclonal antibodies targeting infectious disease pathogens, with three products reaching late-stage development and two now commercially available. Dr. Ambrosino was also an associate professor of pediatrics at the Dana-Farber Cancer Institute and Children's Hospital, Harvard Medical School. At Harvard Medical School she was a National Institutes of Health-funded researcher.

"I have been deeply impressed by the commitment to and notable achievements of Clover's talented team in pursuing cutting-edge science to deliver much needed health solutions for people around the world, starting with COVID-19," said **Dr. Donna Ambrosino**. "I am excited to join Clover's Board as the company continues to advance its pipeline of potentially life-saving vaccines and therapies."

Dr. Clemens has held executive positions in several leading multinational corporations, such as GSK, Novartis Vaccines, and Takeda, and has developed and brought to licensure more than 25 different vaccines globally. In addition to founding and chairing Clover's Vaccine Scientific Advisory Board since its inception in 2020, he is currently a member of the Board of Trustees of the International Vaccine Institute (IVI), a leading global vaccinology organization initiated by the United Nations Development Programme, a Member of the Selection Committee of Global Health Innovative Technology (GHIT) Fund from Japan, and an external Scientific Advisor to the Bill & Melinda Gates Foundation. He is the author of more than 190 publications and 250 presentations in the fields of vaccines, immunization, and tropical medicine.

"As the world continues to grapple with new outbreaks of COVID-19, I believe Clover has a promising and differentiated vaccine candidate—one that has demonstrated broad and durable efficacy as well as a favorable safety profile and can potentially play a critical role in the ongoing global response to this health crisis," said **Dr. Ralf Clemens**. "I look forward to working with Clover's leadership to help expand its global presence and portfolio of vaccines and biotherapies."

### About Clover Biopharmaceuticals

Clover Biopharmaceuticals is a global clinical-stage biotechnology company committed to developing novel vaccines and biologic therapeutic candidates. The Trimer-Tag™ technology platform is a product development platform for the creation of novel vaccines and biologic therapies. Clover leveraged the Trimer-Tag™ technology platform to become a COVID-19 vaccine developer and created SCB-2019 (CpG 1018/Alum) to address the COVID-19 pandemic caused by SARS-CoV-2.
